Price Capping

Any student on the Unlimited Package for the term can participate in all classes within their age group for no additional cost. A commitment to the class must be made; students cannot swap and change classes throughout a commenced term. If you wish to withdraw from a class/classes, it must be done in writing per our T&Cs. (some exclusions may apply)

PLEASE NOTE: no other discounts apply once on UNLIMITED. A sibling family discount is NOT available if you take advantage of the UNLIMITED CAP offer!

Major Ballet Inclusion and Recreational Ballet Available:

Major Ballet (one class) is NOW included in the UNLIMITED PACKAGE CAP. Additionally, two streams are NOW available: Recreational and exam-based. For those who wish to do ballet for recreational purposes, up-skilling their other genres, you are only required to do one class. Those wanting to work towards the examination need two classes if two classes are scheduled for their particular grade (refer to the current timetable).

If you wish to work towards sitting major ballet exams, you will be required to do two allocated classes at your grade level. As mentioned above, 1 class is included in the unlimited package, and the additional scheduled class must be paid for outside of the CAP. Students doing one class only may not progress to wearing/getting the point shoes (grade required), as your child's strength and safety are of priority to our team. This will be decided individually in consultation with the Director/Ballet faculty.

PLEASE NOTE: Extra scheduled competition/troupe classes

Any extra timetabled competition/troupe classes, meaning those booked on weekdays/weekends aside from the timetabled classes and troupe choreography days, require additional payment.

The pricing table is as above. However, a discounted enrolment package fee of \$99 includes the enrolment fee and a cupid frill dress (the uniform required for class) — SAVING YOU MONEY!

Class Rate Calculations

Pricing Example to Assist your Calculations

CLASS RATE = \$17per/hour
calculate time in classes by rate above

e.g. 1.5 hours per week

$$1.5 \text{ hours} \times \$17 = \$25.50$$

$$\$25.50 \text{ per week} \times 10 \text{ week term}$$

$$= \text{Term Cost } (\$255)$$

The same calculation is exercised for any class you enrol in.

You just need to know how many hours/min per week you are enrolled for.

When you reach 7 hours or more, the CAP DISCOUNT APPLIES, AND YOU WILL NOT PAY ANY MORE

Please see the ADC Parent Handbook for any further T&Cs.
